

Hose reels

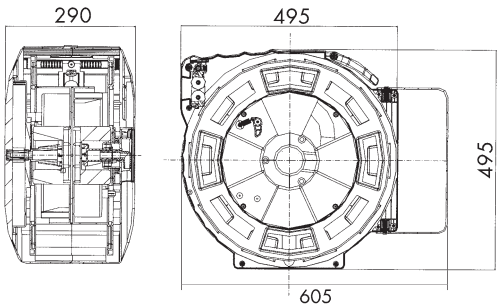

HOSE REELS | SERIE G701 & G760

The G701 and G760 series are reliable aids for looking after external grounds, for work in garden centres or farms. The robust and fully sealed plastic housing assures the hose of a long service life, even under very adverse weather conditions. The connections on the G701 and G760 hose reels are fully compatible with other water-related tools from leading manufacturers. A practical multi-function nozzle with several adjustment settings is included free of charge.
